Archaeology of the Early Iron Age in Croatia and Europe”**

by
Dr. SAŠA KOVAČEVIĆ

on Wednesday, April 26th 2017, at 19:00 h
at the Croatian Embassy, Rennweg 3, 1030 Vienna.

We kindly ask you for reply until April 21st 2017

E-mail veranstaltungen.croemb@mvep.hr

or fax (+43 1) 480 29 42.

Dr. Saša Kovačević is the senior research associate and current Head of the scientific department of the Institute of Archaeology in Zagreb, where he has been employed since 2000. He is also leading the project ‘Iron-Age-Danube’. The main subject of the project is research, protection and presentation of the cultural landscapes of the early Iron Age in Austria, Hungary, Slovenia, Slovakia and Croatia. Dr. Kovačević’s research is focused on prehistoric settlements and corresponding finds from habitation contexts, primarily from the early Iron Age in the southern Pannonian region, especially along the Drava river, which were also the primary topics of his master's degree and doctorate.
